D. Contractor shall apply all rehabilitation materials including cementitious and epoxy liner materials in conformance with the manufacturer's recommendations and the national Association of Sewer Service Companies (NASSCO) recommendations and Manual of Practices .

E. In high traffic areas, the manhole should be barricaded and traffic withheld for a minimum of 12 hours after application is complete or as directed by the City. All traffic barricades shall be approved by the City prior to placement. It is the responsibility of the Contractor to obtain all permits for traffic barricades.

PART 5 – ANCILLARY MANHOLE / LIFT STATION REPAIR ITEMS

5.1 BYPASS PUMPING

A. If warranted to facilitate any aspect of the manhole or lift station restoration process, the Contractor shall provide a bypass pumping system that is capable of handling a minimum flow of 500 GPM at 50 psi. The Contractor shall also provide a secondary or standby pump system that is capable of handling similar flows in the event that the primary pump system experiences flows greater than 500 GPM, or if the first pump fails. Both pumping units shall be provided with the following items: sound reduction compartments, floatation sensors, automatic dialers and internal & external check valve assemblies.

B. Any requirement for bypass pumping shall be submitted by the Contractor, to PSLUSD for review, and approval prior to commencement of actual sewer bypass. PSLUSD shall have sole discretion in determining the necessity for any bypass pumping. No bypass pumping shall be executed without prior approval of PSLUSD.

C. Payment will be made on the basis of the contract unit price bid in the Itemized Proposal for any specific structure that requires bypass pumping. Payments for manhole bypass pumping will be limited to one installment per manhole. Any subsequent or additionally required bypass pumping will be at the sole responsibility and expense of the Contractor.

5.2 RESETTING OF EXISTING MANHOLE COVER FRAME ASSEMBLY

A. If warranted and specified by PSLUSD, some manholes will require the Contractor to perform a grade adjustment and/or resetting of the existing manhole cover frame assembly, prior to manhole liner installation. This work shall involve both unpaved and paved areas.

B. All materials, equipment, and work required to reset existing frames and covers in unpaved or paved areas shall be provided by the Contractor.

C. This item shall include saw-cutting existing asphalt or concrete and disposing of material (in paved areas only), and required excavation, manhole wall and frame preparation, removal and off-site disposal of existing materials, backfilling and compaction per PSLUSD specifications and details, accessing manholes as specified, traffic control, coordination with and location of existing utilities, complete restoration of thereto for which separate payment is not provided under other bid items.

D. Payment will be made on the basis of the contract unit price bid in the Itemized Proposal for each manhole frame and cover that is reset.

5.3 INSTALLATION OF NEW MANHOLE COVER FRAME ASSEMBLY

A. If warranted and specified by PSLUSD, some manholes will require the Contractor to remove and replace the existing manhole cover frame assembly prior to manhole liner installation. This work shall involve both unpaved and paved areas.

B. When manhole cover frame assembly replacement is required, the new manhole cover frame assembly shall be provided to the Contractor by PSLUSD.

C. All additional materials, equipment, and work required to replace the existing manhole cover frame assembly shall be provided by the Contractor.

D. This item shall include saw-cutting existing asphalt or concrete and disposing of material (in paved areas only), excavation, manhole wall and frame preparation, new frame and cover, removal and off-site disposal of existing material, backfilling and compaction per the specifications and details, accessing manholes as specified, traffic control, coordination with and location of existing utilities, complete restoration of asphalt and concrete or grass, and for all else incidental thereto for which separate payment is not provided under other bid items.

E. Payment will be made on the basis of the contract unit price bid in the Itemized Proposal for each manhole frame and cover that is replaced.

5.4 REBUILDING EXISTING MANHOLE BENCH & INVERT CHANNELS

A. If warranted and specified by PSLUSD, some manholes will require the Contractor to perform a rebuild of the existing manhole bench and invert channel prior to manhole liner installation.

B. Repairs shall be performed on all manhole benches and inverts that exhibit visible damage and/or infiltration, or require such repairs in order to facilitate successful manhole liner performance testing.

C. This item includes all materials, equipment, and work required to rebuild existing manhole bench areas. All manhole bench and invert channel repairs shall be approved by PSLUSD.

D. Prior to repairs, flow through the manhole shall be arrested via the use of pipe plugs, flow-through plugging systems, or manhole by-pass pumping (ref. Section 5.1) as required.

E. After manhole flow has been diverted, remove all loose material from manhole bench and invert areas and pressure wash using a minimum 5000 psi hydrablast.

F. The quick setting patching and invert repair material shall be applied to the invert in an expeditious manner. The mix shall be troweled uniformly onto the invert a minimum thickness of 0.5 inches, extending out onto the bench sufficiently to create an adjoining tie in region for the spray applied monolithic cementitious liner material.

G. Care should be taken in the furnishing of invert channel, so as to maintain the hydraulic performance of the manhole. The finished invert should be smooth and free of any ridges or other surface irregularities that might impede flow.

H. Flow in the manhole should be restored as soon as the quick setting invert repair material achieves its initial set and not longer than 30 minutes from the time of initial service interruption.

I. Payment will be made on the basis of the contract unit price bid in the Proposal for each manhole bench and invert channel that is rebuilt.

5.5 REMOVAL OF EXISTING MANHOLE STEPS

A. Unless plastic coated and in relatively good and sound physical condition, all existing manhole steps are to be removed prior to the

manhole liner materials. This removal is to prevent potential injury resulting from unauthorized or improper manhole entry, as well as to better facilitate a monolithic seal within the manhole structure.

B. Manhole steps may be demolished and removed using a sledge hammer or cut and removed using a grinding wheel. Effort should be made to minimize or eliminate any remaining or exposed remnants of the steps on the surface of the manhole walls.

C. Payment will be made on the basis of the contract until price bid in the Proposal for each manhole step that is removed, regardless of method.

5.5 CHEMICAL GROUTING OF MANHOLES & LIFT STATIONS

A. Manholes and lift stations that exhibit moderate to severe groundwater infiltration will require the use of chemical injection grouting to arrest leakage prior to rehabilitation. The Contractor will submit said structures to PSLUSD for approval of the grouting procedure, prior to commencement of work.

B. Materials, additives, mixture ratios, and procedures utilized for the grouting process shall be in accordance with the grout manufacturer's recommendations.

C. The following properties shall be exhibited by the grout.

(1). Documented service of satisfactory performance in similar usage.

(2). Controllable reaction times and shrinkage through the use of chemicals supplied by the same manufacturer. The minimum set time shall be established so that adequate grout travel is achieved.

(a). Resistance to chemicals: to most organic solvents, mild acids, and alkali.

(b). The chemical shall be essentially non-toxic in a cured form.

(3). Sealing material shall not be rigid or brittle when subjected to dry atmosphere. The material shall be able to withstand freeze/thaw and moving load conditions.

(4). Acrylate grouts may not be used.

D. Mixing and handling of chemical grout, which may be toxic under certain conditions, shall be in accordance with the recommendations of the manufacturer and in such a manner to minimize hazard to personnel. It is the responsibility of the Contractor to provide appropriate protective measures to ensure that chemicals or gels are handled by authorized personnel in the proper manner. All equipment shall be subjected to the approval of PSLUSD. Only personnel thoroughly familiar with the handling of the grout material and additives shall perform the grouting operations.

E. Injection holes shall be drilled through the manhole wall at locations as recommended by the grout manufacturer.

F. Grout shall be injected through the holes under pressure with a suitable probe. Injection pressure shall not cause damage to the manhole structure or surrounding surface features. Grout shall be injected through the lowest holes first. The procedure shall be repeated until the manhole is externally sealed with grout.

G. Grouting from the ground surface shall not be allowed.

H. Grout travel shall be verified by observation of grout to defects or adjacent injection holes. Provide additional injection holes, if necessary, to insure grout travel.

I. Injection holes shall be cleaned with a drill and patched with a waterproof quick setting mortar for brick and concrete manholes.

PART 6 – INSPECTION AND PERFORMANCE TESTING

6.1 PROTECTIVE LINER INSPECTION

After the specified repair and rehabilitation work has been completed, the manhole or lift station shall be visually reviewed and tested by the contractor in the presence of the owner. Visual review shall be for water tightness against leakage of water into the structure. All visible leaks and defects observed during the review shall be repaired to the owner's satisfaction. There shall be no visible infiltration.

6.2 PROTECTIVE LINER PERFORMANCE TESTING

A. In addition to the visual inspection, each completed manhole will be subject to the following in-field performance testing requirements as a prerequisite for Contractor payment.

B. The applicable and required performance testing method will be dependent upon the appropriate Condition Assessment based repair method.

C. All equipment, materials, and work associated with the prescribed performance testing requirements shall be at the sole expense of the Contractor.

6.3 CONDITION II APPLICATIONS – CEMENTITIOUS LINERS

A. All condition II applications (stand-alone cementitious liners) shall be tested per ASTM Designation C 1244 – Standard Test Method for Concrete Sewer Manholes by the Negative Air Pressure (Vacuum) test.

B. All pipes entering the manhole should be plugged, taking care to securely brace the plug from being drawn into the manhole.

C. A vacuum pump apparatus shall be placed onto the manhole ring and Sealed to the structure in accordance with the pump manufacturer's recommendations. A vacuum pump of ten (10) inches of mercury shall be drawn and the vacuum pump shut off.

D. With the pressure relief valves closed, the time shall be measured for the vacuum to drop to (9) inches. The following table depicts the minimum allowable test times (in seconds) for manhole acceptance at the specified vacuum drop.

Manhole Depth				**Time**
	(Seconds)	**48" Diameter**	**60" Diameter**	**72"**
(Feet)				
	Diameter			
4		10	13	
	16			
8		20	26	
	32			
12		30	39	
	48			
16		40	52	
	64			
20		50	65	
	80			

24		60	78	
	96			
Add for 2 ft. more depth: 5		6.5	8	

E. Manholes that fail the vacuum test shall be reworked and retested by the contractor at no additional compensation until the test is passed. Any manholes that are visually leaking, or otherwise deemed unacceptable, or fail or vacuum test, shall be completely re-sprayed and re-tested until accepted by PSLUSD.

6.4 CONDITION I, III, & IV APPLICATIONS – EPOXY COATINGS

A. All condition I, III, & IV applications (epoxy coating installations) shall be tested using a holiday or spark test method to identify any pinholes or holidays that were not detected during the visual inspection. Condition II manholes shall not be subject to vacuum testing.

B. The Contractor shall perform holiday detection on all surfaces coated with the epoxy coating in the presence of Inspector.

C. After the epoxy coating has set hard to the touch, surfaces shall first be dried, an induced holiday shall then be made on to the coated concrete surface and shall serve to determine the minimum/maximum voltage to be used to test the coating for holidays at that particular area.

D. The spark tester shall be initially set at 100 volts per 1 mil (25 microns) of film thickness applied but may be adjusted as necessary to detect the induced holiday (ref. NACE RPO188-99).

E. All detected holidays shall be marked and repaired by abrading the coating surface with grit disk paper or other hand tooling method. After abrading and cleaning, additional epoxy coating material can be hand applied to the repair area. All touch-up/repair procedures shall follow the epoxy coating recommendations.

Bid Reply Sheet
Bid #S-20120035

COMPLETE REHABILITATION OF CITY MANHOLES AND LIFT STATION WET WELLS AND LIFT STATION WET WELLS

1. **COMPANY NAME**: Hinterland Group, Inc.

DIVISION OF: N/A

PHYSICAL ADDRESS: 5642 Corporate Way

MAILING ADDRESS: 5642 Corporate Way

CITY, STATE, ZIP CODE: West Palm Beach, Florida 33407

TELEPHONE NUMBER: (561) 640-3503 FAX NO. (321) 633-7067

CONTACT PERSON: Daniel Duke III E-MAIL:Dduke1@hinterlandgroup.com

2. **ORGANIZATIONAL PROFILE**: (complete all appropriate information)

Is the firm incorporated? Yes--No If yes, in what state? Florida

Daniel Duke III
President
N/A
Secretary

N/A
Vice President
N/A
Treasurer

How long in present business: 6 Years How long at present location: 1 Year

Is firm a minority business: Yes--No: Does firm have a drug-free workplace program: Yes--No
If no, is your company planning to implement such a program? N/A

3. **ADDENDUM ACKNOWLEDGMENT** - Bidder acknowledges that the following addenda have been received and are included in his/her proposal/bid:

Addendum Number	Date Issued
1	07/02/2012
2	07/02/2012
3	07/10/2012
4	07/10/2012
5	07/10/2012
6	07/16/2012

4. **VENDOR'S LIST** – If your company offers commodities other than the one specified for this bid, and you wish to be put on the vendor's list, please contact DemandStar.com at (800) 711-1712. Bid Tabulation Reports are advertised on the City's Web Site at www.cityofpsl.com.

5. **BID RESPONSE:**

5.1 Bidder will / will not accept the Procurement Card (Visa). *(please circle one)*

5.2 Percentage of discount when payment is made with Visa: N/A %

5.3 Total bid amount from Excel Bid Reply Sheet, All Category A Total $5,166.00
Any discrepancies will be in favor of the unit price and the total on the Excel Bid Reply.

6. Provide a list of the last 5 projects of this type in the State of Florida. See Attached

DRUG-FREE WORKPLACE FORM

The undersigned vendor in accordance with Florida Statute 287.087 hereby certifies that

Hinterland Group, Inc. does:
(Name of Business)

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

Hinterland Group, Inc.

as Principal, hereinafter called the Principal, and
Fidelity & Deposit Company of Maryland, 4010 Boyscout Blvd. #600, Tampa, FL 33607

a corporation duly organized under the laws of the State of Maryland
as Surety, hereinafter called the Surety, are held and firmly bound unto
City of Port St. Lucie

as Obligee, hereinafter called the Obligee, in the sum of
five percent of amount bid

Dollars ($ 5 % of amount bid,
for the payment of which sum well and truly to be made, the said Principal and the said Surety, bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

WHEREAS, the Principal has submitted a bid for
complete rehabilitation of City Manholes, Lift Stations & Wet Wells, bid#20120035

NOW, THEREFORE, If the Obligee shall accept the bid of the Principal and the Principal shall enter into a Contract with the Obligee in accordance with the terms of such bid, and give such bond or bonds as may be specified in the bidding or Contract Documents with good and sufficient surety, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof, or in the event of the failure of the Principal to enter such Contract and give such bond or bonds, if the Principal shall pay to the Obligee the difference not to exceed the penalty hereof between the amount specified in said bid and such larger amount for which the Obligee may in good faith contract with another party to perform the Work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect.

EXTRACT FROM BY-LAWS OF FIDELITY AND DEPOSIT COMPANY OF MARYLAND

"Article VI, Section 2. The Chairman of the Board, or the President, or any Executive Vice-President, or any of the Senior Vice-Presidents or Vice-Presidents specially authorized so to do by the Board of Directors or by the Executive Committee, shall have power, by and with the concurrence of the Secretary or any one of the Assistant Secretaries, to appoint Resident Vice-Presidents, Assistant Vice-Presidents and Attorneys-in-Fact as the business of the Company may require, or to authorize any person or persons to execute on behalf of the Company any bonds, undertaking, recognizances, stipulations, policies, contracts, agreements, deeds, and releases and assignments of judgements, decrees, mortgages and instruments in the nature of mortgages,...and to affix the seal of the Company thereto."

CERTIFICATE

I, the undersigned, Assistant Secretary of the FIDELITY AND DEPOSIT COMPANY OF MARYLAND, do hereby certify that the foregoing Power of Attorney is still in full force and effect on the date of this certificate; and I do further certify that the Vice-President who executed the said Power of Attorney was one of the additional Vice-Presidents specially authorized by the Board of Directors to appoint any Attorney-in-Fact as provided in Article VI, Section 2, of the By-Laws of the FIDELITY AND DEPOSIT COMPANY OF MARYLAND.

This Power of Attorney and Certificate may be signed by facsimile under and by authority of the following resolution of the Board of Directors of the FIDELITY AND DEPOSIT COMPANY OF MARYLAND at a meeting duly called and held on the 10th day of May, 1990.

RESOLVED: "That the facsimile or mechanically reproduced seal of the company and facsimile or mechanically reproduced signature of any Vice-President, Secretary, or Assistant Secretary of the Company, whether made heretofore or hereafter, wherever appearing upon a certified copy of any power of attorney issued by the Company, shall be valid and binding upon the Company with the same force and effect as though manually affixed."

IN TESTIMONY WHEREOF, I have hereunto subscribed my name and affixed the corporate seal of the said Company,

this 10 day of July, 2012

George E. Murray

Assistant Secretary

Power of Attorney
FIDELITY AND DEPOSIT COMPANY OF MARYLAND

KNOW ALL MEN BY THESE PRESENTS: That the FIDELITY AND DEPOSIT COMPANY OF MARYLAND, a corporation of the State of Maryland, by WILLIAM J. MILLS, Vice President, and ERIC D. BARNES, Assistant Secretary, in pursuance of authority granted by Article VI, Section 2, of the By-Laws of said Company, which are set forth on the reverse side hereof and are hereby certified to be in full force and effect on the date hereof, does hereby nominate, constitute and appoint **Daniel F. WAGNER, of Lakeland, Florida,** its true and lawful agent and Attorney-in-Fact, to make, execute, seal and deliver, for, and on its behalf as surety, and as its act and deed: **any and all bonds and undertakings,** and the execution of such bonds or undertakings in pursuance of these presents, shall be as binding upon said Company, as fully and amply, to all intents and purposes, as if they had been duly executed and acknowledged by the regularly elected officers of the Company at its office in Baltimore, Md., in their own proper persons. This power of attorney revokes that issued on behalf of Daniel F. WAGNER, Tina M. HALE, dated June 16, 2003.

The said Assistant Secretary does hereby certify that the extract set forth on the reverse side hereof is a true copy of Article VI, Section 2, of the By-Laws of said Company, and is now in force.

IN WITNESS WHEREOF, the said Vice-President and Assistant Secretary have hereunto subscribed their names and affixed the Corporate Seal of the said FIDELITY AND DEPOSIT COMPANY OF MARYLAND, this 19th day of July, A.D. 2010.

ATTEST: **FIDELITY AND DEPOSIT COMPANY OF MARYLAND**

FIDELITY AND DEPOSIT COMPANY OF MARYLAND — INCORPORATED — 1890

By:

Eric D. Barnes *Assistant Secretary* *William J. Mills* *Vice President*

State of Maryland }
City of Baltimore } ss:

On this 19th day of July, A.D. 2010, before the subscriber, a Notary Public of the State of Maryland, duly commissioned and qualified, came WILLIAM J. MILLS, Vice President, and ERIC D. BARNES, Assistant Secretary of the FIDELITY AND DEPOSIT COMPANY OF MARYLAND, to me personally known to be the individuals and officers described in and who executed the preceding instrument, and they each acknowledged the execution of the same, and being by me duly sworn, severally and each for himself deposeth and saith, that they are the said officers of the Company aforesaid, and that the seal affixed to the preceding instrument is the Corporate Seal of said Company, and that the said Corporate Seal and their signatures as such officers were duly affixed and subscribed to the said instrument by the authority and direction of the said Corporation.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed my Official Seal the day and year first above written.

Constance A. Dunn *Notary Public*

My Commission Expires: July 14, 2015

Form **W-9**
(Rev. October 2007)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Give form to the requester. Do not send to the IRS.

Print or type
See Specific Instructions on page 2.

Name (as shown on your income tax return)
Hinterland Group, Inc.

Business name, if different from above

Check appropriate box: ☐ Individual/Sole proprietor ☑ Corporation ☐ Partnership
☐ Limited liability company. Enter the tax classification (D=disregarded entity, C=corporation, P=partnership) ▶ .....
☐ Other (see instructions) ▶

☐ Exempt payee

Address (number, street, and apt. or suite no.)
5580 State Road 524

Requester's name and address (optional)

City, state, and ZIP code
Cocoa, Florida 32926

List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number
: :

or

Employer identification number
20 5156844

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. See the instructions on page 4.

Sign Here Signature of U.S. person ▶ Date ▶ 7/29/2012

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,

DRUG-FREE WORKPLACE FORM

The undersigned vendor in accordance with Florida Statute 287.087 hereby certifies that

Intercounty Engineering, Inc. does:
(Name of Business)

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

POWER OF ATTORNEY
INTERNATIONAL FIDELITY INSURANCE COMPANY

HOME OFFICE: ONE NEWARK CENTER, 20TH FLOOR
NEWARK, NEW JERSEY 07102-5207

FOR BID BOND/RIDER/CONSENTS/AFFIDAVITS

KNOW ALL MEN BY THESE PRESENTS: That INTERNATIONAL FIDELITY INSURANCE COMPANY, a corporation organized and existing laws of the State of New Jersey, and having its principal office in the City of Newark, New Jersey, does hereby constitute and appoint

ROBERT BARRA

Coral Springs, FL.

its true and lawful attorney(s)-in-fact to execute, seal and deliver for and on its behalf as surety, any and all bonds and undertakings, contracts of indemnity and other writings obligatory in the nature thereof, which are or may be allowed, required or permitted by law, stature, rule, regulation, contract or otherwise, and the execution of such instrument(s) in pursuance of these presents, shall be as binding upon the said INTERNATIONAL FIDELITY INSURANCE COMPANY, as fully and amply, to all intents and purposes, as if the same had been duly executed and acknowledged by its regularly elected officers at its principal office.

This Power of Attorney is executed, and may be revoked, pursuant to and by authority of Article 3-Section 3, of the By-Laws adopted by the Board of Directors of INTERNATIONAL FIDELITY INSURANCE COMPANY at a meeting called and held on the 7th day of February, 1974.

The President or any Vice President, Executive Vice President, Secretary or Assistant Secretary, shall have power and authority

(1) To appoint Attorneys-in-fact, and to authorize them to execute on behalf of the Company, and attach the Seal of the Company thereto, bonds and undertakings, contracts of indemnity and other writings obligatory in the nature thereof and,

(2) To remove, at any time, any such attorney-in-fact and revoke the authority given.

Further, this Power of Attorney is signed and sealed by facsimile pursuant to resolution of the Board of Directors of said Company adopted at a meeting duly called and held on the 29th day of April, 1982 of which the following is a true excerpt:

Now therefore the signatures of such officers and the seal of the Company may be affixed to any such power of attorney or any certificate relating thereto by facsimile, and any such power of attorney or certificate bearing such facsimile signatures or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by facsimile signatures and facsimile seal shall be valid and binding upon the Company in the future with respect to any bond or undertaking to which it is attached.

INTERNATIONAL FIDELITY INSURANCE COMPANY CORPORATE SEAL 1904 NEW JERSEY

IN TESTIMONY WHEREOF, INTERNATIONAL FIDELITY INSURANCE COMPANY has caused this instrument to be signed and its corporate seal to be affixed by its authorized officer, this 29th day of August, A.D. 2003.

INTERNATIONAL FIDELITY INSURANCE COMPANY

STATE OF NEW JERSEY
County of Essex

Secretary

On this 29th day of August 2003, before me came the individual who executed the preceding instrument, to me personally known, and, being by me duly sworn, said the he is the therein described and authorized officer of the INTERNATIONAL FIDELITY INSURANCE COMPANY; that the seal affixed to said instrument is the Corporate Seal of said Company; that the said Corporate Seal and his signature were duly affixed by order of the Board of Directors of said Company.

JOSE A. MARQUEZ, JR. NOTARY PUBLIC NEW JERSEY

IN TESTIMONY WHEREOF, I have hereunto set my hand affixed my Official Seal, at the City of Newark, New Jersey the day and year first above written.

A NOTARY PUBLIC OF NEW JERSEY
My Commission Expires Nov. 21, 2010

CERTIFICATION

I, the undersigned officer of INTERNATIONAL FIDELITY INSURANCE COMPANY do hereby certify that I have compared the foregoing copy of the Power of Attorney and affidavit, and the copy of the Section of the By-Laws of said Company as set forth in said Power of Attorney, with the ORIGINALS ON IN THE HOME OFFICE OF SAID COMPANY, and that the same are correct transcripts thereof, and of the whole of the said originals, and that the said Power of Attorney has not been revoked and is now in full force and effect

IN TESTIMONY WHEREOF, I have hereunto set my hand this 24 day of July 2012

Assistant Secretary

HOWEY IN THE HILLS FL 34737

Congratulations! With this license you become one of the nearly one million Floridians licensed by the Department of Business and Professional Regulation. Our professionals and businesses range from architects to yacht brokers, from boxers to barbeque restaurants, and they keep Florida's economy strong.

Every day we work to improve the way we do business in order to serve you better. For information about our services, please log onto **www.myfloridalicense.com**. There you can find more information about our divisions and the regulations that impact you, subscribe to department newsletters and learn more about the Department's initiatives.

Our mission at the Department is: License Efficiently, Regulate Fairly. We constantly strive to serve you better so that you can serve your customers. Thank you for doing business in Florida, and congratulations on your new license!

WAGNER BONDING
&
INSURANCE, INC.

July 23, 2012

Re: Morris and Associates, Inc.

To Whom It May Concern:

We are the bonding agent for Morris and Associates, Inc.

We welcome the opportunity to execute the necessary bonds provided they meet the current underwriting guidelines and the provisions are acceptable to both, Morris and Associates, Inc and the Surety Company.

Should you have any questions or concerns, please do not hesitate to call.

Sincerely,
Wagner Bonding & Insurance, Inc

Paints + Coatings does:
(Name of Business)

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

BID BOND

TRAVELERS CASUALTY AND SURETY COMPANY OF AMERICA
Hartford, Connecticut 06183

CONTRACTOR:
(Name, legal status and address)
Select Environmental Services, Inc.
12221 N. US Highway 301
Thonotosassa, FL 33592

SURETY:
(Name, legal status and principal place of business)
Travelers Casualty and Surety Company of America
One Tower Square
Hartford, CT 06183

OWNER:
(Name, legal status and address):

City of Port St. Lucie, Florida

BOND AMOUNT: **Five Percent of Amount Bid (5%)**

PROJECT:
(Name, location or address, and Principal number, if any)

Complete Rehabilitation of City Manholes, Lift Stations and Wet Wells

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters into a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specified in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof; or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

Signed and sealed this **24th** day of **July**, **2012**.

WARNING: THIS POWER OF ATTORNEY IS INVALID WITHOUT THE RED BORDER

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of Farmington Casualty Company, Fidelity and Guaranty Insurance Company, Fidelity and Guaranty Insurance Underwriters, Inc., St. Paul Fire and Marine Insurance Company, St. Paul Guardian Insurance Company, St. Paul Mercury Insurance Company, Travelers Casualty and Surety Company, Travelers Casualty and Surety Company of America, and United States Fidelity and Guaranty Company, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company's name and seal with the Company's seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognizance, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her; and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company's seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Secretary, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile signature or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, Kevin E. Hughes, the undersigned, Assistant Secretary, of Farmington Casualty Company, Fidelity and Guaranty Insurance Company, Fidelity and Guaranty Insurance Underwriters, Inc., St. Paul Fire and Marine Insurance Company, St. Paul Guardian Insurance Company, St. Paul Mercury Insurance Company, Travelers Casualty and Surety Company, Travelers Casualty and Surety Company of America, and United States Fidelity and Guaranty Company do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which is in full force and effect and has not been revoked.

WARNING: THIS POWER OF ATTORNEY IS INVALID WITHOUT THE RED BORDER

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 24th day of July, 20 12.

Form **W-9**
(Rev. December 2011)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Give Form to the requester. Do not send to the IRS.

Print or type
See Specific Instructions on page 2.

Name (as shown on your income tax return)
Select Environmental Services, Inc.

Business name/disregarded entity name, if different from above

Check appropriate box for federal tax classification:
☐ Individual/sole proprietor ☑ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate

☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=partnership) ▶

☐ Other (see instructions) ▶

☐ Exempt payee

Address (number, street, and apt. or suite no.)
12221 N US Highway 301

Requester's name and address (optional)

City, state, and ZIP code
Thonotosassa, FL 33592

List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on the "Name" line to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number
☐☐☐ – ☐☐ – ☐☐☐☐

Employer identification number
0 1 – 0 9 6 5 9 7 5

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the Instructions on page 4.

Sign Here Signature of U.S. person ▶ Date ▶ 7/23/12

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),

2. Certify that you are not subject to backup withholding, or

3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

DRUG-FREE WORKPLACE FORM

The undersigned vendor in accordance with Florida Statute 287.087 hereby certifies that

T.V. Diversified Inc does:
(Name of Business)

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

Bid Bond

CONTRACTOR:
T. V. Diversified, Inc.
6397 Shadow Creek Village Circle
Lake Worth, Florida 33463

SURETY:
Developers Surety and Indemnity Company
PO Box 19725
Irvine, CA 92623

OWNER:
City of Port St. Lucie
121 S.W. Port St. Lucie Blvd.
Port St. Lucie, FL 34984

BOND AMOUNT:
Five Percent of Amount Bid (5% of Amount Bid)

PROJECT: Complete Rehabilitation of City Manholes, Lift Station and Wet Wells, Bid #20120035

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters into a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specificed in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof: or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specifified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60)days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60)days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requreiment shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

Signed and sealed this 10th day of July, 2012.

ALUMINATE TECHNOLOGIES

SUBJECT: The Use and History of SewperCoat®

To Whom It May Concern:

SewperCoat® is a technological breakthrough in cementitious material designed for the municipal wastewater industry to provide structural, corrosion-resistant protection against biogenic corrosion relative to hydrogen sulfide (H_2S) found in wastewater environments. There are two primary SewperCoat® formulations manufactured for the North America manufactured and marketed by Kerneos Aluminate Technologies. All SewperCoat® formulations are based on 100% calcium aluminate chemistry and mineralogy, meaning both cement and aggregate are pure fused calcium aluminate.

Kerneos is the inventor of (1903 J. Bied patent) and world's largest producer of calcium aluminate cement and materials. Headquartered in Paris, France, Kerneos Aluminate Technologies operates eight ISO 9001 certified (replacing the previous ISO 9002 certification) manufacturing plants worldwide, with the U.S. facility being Kerneos Inc. located in Chesapeake, Virginia. Kerneos Inc. is the only domestic manufacturer of calcium aluminates in North America. This facility manufactures 16 calcium aluminate products including a full range of cements and formulated products. These materials are globally supplied to a variety of industries and business segments.

One major worldwide market we supply is the wastewater industry, with a proven history of successful performance in this market dating back over 65 years. Calcium aluminate's use in the US wastewater industry dates back over 20 years, with SewperCoat® specifically used for the past 15 years.

A brief summary of the volume of SewperCoat® materials used in the US from the year 2000 through 2004 alone is as follows:

- SewperCoat® PG volumes over the past 5 years reflect the equivalent of more than 150,000 vertical feet of manhole rehabilitation.
- SewperCoat® 2000HS volumes over the past 5 years reflect the equivalent of more than 400,000 ft^2 of sewer rehabilitation.
- We have also supplied SewperCoat® material quantities for the lining of approximately 280,000 ft^2 of ductile iron pipe through Griffin Pipe Products Company.

Kerneos Inc. - 1316 Priority Lane, Chesapeake, VA 23324

CICS
U.K.A.S.

Kerneos
ALUMINATE TECHNOLOGIES

Again, the figures mentioned above reflect only a 5 year period of SewperCoat® use in the US only. It would be difficult to correlate this type of use information within the US for the past 20 years, much less worldwide usage over the past 65 years. Significant project usage and reference contact information can be provided upon request to verify those figures listed above.

If there are any questions whatsoever, please feel free to contact Kerneos Inc. at 757-284-3200.

Respectfully,

Joseph Talley
SewperCoat® Market Manager

kerneos
ALUMINATE TECHNOLOGIES

Letter of Compliance

Scope

This letter of compliance covers Kerneos Inc. SewperCoat® 2000HS Regular and SewperCoat® PG products. Kerneos Inc. is an ISO 9001 certified manufacturer. All SewperCoat® products are manufactured in accordance with ISO 9001 certification in Andersonville, Georgia.

These SewperCoat® products produced by Kerneos Inc. will conform to the physical and mechanical properties set forth in the Specification Sheet issued by Kerneos for the applicable product at the time of sale.

Material

SewperCoat® furnished shall be a prepackaged mortar mix, including all cement, aggregates, and any required additives. Typical package weights shall not be less than 50 lbs and shall be identical for all material furnished on this project.

The chemical composition of the cement portion as well as the aggregates of the mortar mix shall be as follows:

Al_2O_3	CaO	$FeO + Fe_2O_3$	SiO_2
39-44%	35-39%	9-14%	5-7%

The design properties of the mortar mix shall be as follows:

Compressive Strength (ASTM C109)	> 5,500 psi	24 hours
	> 9,000 psi	28 days
Flexural Strength (ASTM C293)	> 1,200 psi	24 hours
	> 1,400 psi	28 days
Splitting Tensile Strength (ASTM	> 800 psi	24 hours
Bond Strength/Slant Shear (ASTM	> 1,200 psi	24 hours
Shrinkage at 28 days (ASTM C596)	< 0.08% cured @ 90% relative humidity	
Freeze/Thaw after 300 Cycles (ASTM	No visible damage after 300 cycles

Material Safety Data Sheet

Reference MSDS-US-SWP-8/06

SewperCoat®

Updated 8/24/2006

Reviewed 1/3/2012

1 Product and company identification

- **Product Name**

  SewperCoat®

- **Trade Names**

  Sewpercoat® PG, SewperCoat® 2000HS

- **Supplier**

  Kerneos Inc.
  1316 Priority Lane
  Chesapeake, VA 23324
  Phone: 757-284-3200
  Fax: 757-284-3300

2 Composition / Information on ingredients

- **Chemical Nature**

  Substance obtained from the blending of a calcium aluminate clinker and calcium aluminate cement. The major elements appearing in the mortar are oxides based on Al, Ca, Si and Fe. The particles are polyphasic and as such the following mineralogical phases can be found depending on the grade of clinker.

$CaO \cdot Al_2O_3$	12042-68-1
$CaO \cdot 2Al_2O_3$	12004-88-5
$12CaO \cdot 7Al_2O_3$	12005-57-1
$2CaO \cdot Al_2O_3 \cdot SiO_2$	12068-46-1
$4CaO \cdot Al_2O_3 \cdot Fe_2O_3$	12068-35-8
Al_2O_3 (α, β)	1344-28-1

The generic CAS number for the polyphasic aluminate cement is:

Calcium aluminate cement	65997-16-2

Calcium aluminate mortar does not contain free lime or crystalline silica (such as quartz, tridymite or cristobalite) in measurable amounts.

- **CAS number**

  SewperCoat® PG, SewperCoat® 2000HS

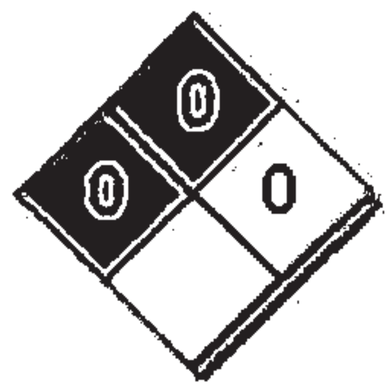
  65997-16-2 100%

3 Hazards Identification

- **HMIS Rating (NPCA)**

Health	0	Flammability	0
Reactivity	0	Personal Protection	0

- **NFPA Rating**



Health	0	Flammability	0
Reactivity	0	Special	0

- **WHMIS Classification**

Class D, division 2B toxic material

skin or eye irritant

Class E, corrosive material

forms alkaline solution with water

- **Most important hazards**

In contact with water, an alkaline solution will be formed (pH 11 – 11.5). In spite of the pH level, the alkaline reserve is limited and the product has not been classified as irritant according to the criteria defined in the EEC directives (93/21/EEC)

A dust problem may occur in confined areas. It is regarded as nuisance dust without any known specific effects to health.

- **Specific hazards**

Calcium aluminates react chemically and harden when mixed with water. The reaction is exothermic resulting in a temperature rise. If large quantities of mortar are exposed to sufficient quantities of water, steam can be formed and the temperature may increase enough to cause a risk of burns during the reaction.

- **Carcinogen listed in:**

Calcium aluminate mortar is not a listed carcinogen with NTP, OSHA or IARC monograph.

4 First aid measures

- **Inhalation**

Remove person to fresh air. If symptoms persist, seek medical attention

- **Skin contact**

Remove contaminated clothing and wash affected area with soap and water.

- **Eye contact**

Flush eyes with plenty of clean water. If symptoms persist, seek medical attention.

- **Ingestion**

Do not induce vomiting. Wash mouth with water and give plenty of water to drink.

5 Fire-fighting measures

Calcium aluminate mortar is not flammable and will not support a flame. It does not promote combustion with other materials.

6 Accidental release measures

- **Personal precautions**

See section 7 and 8

- **Environmental precautions**

Avoid emission of dust

- **Methods of cleaning up**

For large amounts, preferable use dry methods while avoiding dust exposure.

Do not empty material into drains, sewers or water basins as the material hardens in contact with water.

7 Handling and storage

- **Technical measures and precautions**

  Use common procedures for handling and storage of industrial powder products with particular attention to suppression of dust and spillage, to avoid unnecessary exposure.

  Store in dry conditions, preferably above ground protected by shrink wrap or in bulk silo.

- **Safe handling advise**

  No particular precautions.

- **Incompatible products**

  Contact with water or water vapor during storage will hydrate the product which will cause lumps and affect the performance.

- **Packaging materials**

  No special restrictions with respect to safety.

8 Exposure control / personal protection

- **Engineering measures**

  Mechanical ventilation is recommended wherever feasible for evacuation of dust during handling operations (discharging, mixing, conveying, packing, etc.).

- **Control parameters**

  The following occupational exposure limits defined for non specified nuisance dust are applicable.

	OSHA PEL	ACGIH PEL
Total dust	15 mg/m^3	10 mg/m^3
Respirable dust	5 mg/m^3	5 mg/m^3

- **Personal protective equipment**

  ANSI approved glasses or goggles should be worn whenever there is a risk of powder or wet mixture entering the eyes.

  Protective clothing is recommended, including waterproof gloves and boots.

  NIOSH approved respiratory protection should be worn when the conditions are such that the personal exposure is estimated to approach or exceed the stated limits.

9 Physical and chemical properties

Physical State: Dry powder

Color: dark brown

Odor: none

Specific gravity: 2.9 – 3.3

Vapor density: n/a

Vapor pressure: n/a

Evaporation rate: n/a

Boiling point:	n/a
Freezing point:	n/a
pH:	11 – 11.5 when wet
Water solubility:	negligible

10 Stability and reactivity

- **Stability**

  In a dry environment the product is chemically stable.

  When mixed with water it reacts chemically and hardens, forming stable calcium aluminate hydrates. The reaction is exothermic and continues for up to 24h.

- **Hazardous decomposition products**

  None.

11 Toxicological information

- **Acute toxicity**

  None.

- **Local effects**

  May cause local irritation to eye, throat or skin, but in not classified as irritant according to EEC legislation

- **Sensitization and chronic toxicity**

  Does not contain measurable amounts of soluble Chromium (VI)

12 Ecological information

- **Possible environmental effects**

  After hydration (a few hours or days in moist conditions) the product is stable in soil and in water, with a negligible mobility of its constituents.

13 Disposal considerations

Bags of unused material or empty contaminated packaging, as well as hardened residue may be disposed by landfill, if in accordance with local or national disposal regulations.

The conditions or methods for handling, stocking, using or eliminating this product are beyond the control of Kerneos. Kerneos shall therefore not be held liable in case of loss, damage or any expense incurred related to the handling, the stocking, the use or the elimination of this product howsoever.

14 Transport information

This product is not classified as a hazardous material under U.S. DOT or Canadian TDG regulations.

15 Regulatory information

- **CERCLA/Superfund**

  This product is not listed as a CERCLA hazardous substance.

- **Inventory listings**

  This substance is listed on:

  - U.S. TSCA inventory Section 8 (b)
  - Canadian Inventory, the DSL

16 Other information

This MSDS follows:

- OSHA CFR 1910.1200 on hazard communication
- It has been prepared by the technical department of Kerneos Inc., Chesapeake, VA.
- This version applies to Kerneos products distributed in North America. For users outside this area please consult your local office for a current MSDS.
- An electronic version of this MSDS is available at: www.Kerneosinc.com under the products section
- This document applies to this product only. When this product is mixed with other materials, the information contained in this document may not be applicable.

Kerneos Inc., believes the information contained herein is accurate: however, Kerneos makes no guarantees with respect to such accuracy and assumes no liability in connection with the use of the information contained herein which is not intended to be and should not be construed as legal advice or as insuring compliance with any federal, state or local laws or regulations. Any party using this product should review all such laws, rules or regulations prior to use, including but not limited to US and Canada Federal, Provincial and State regulations.

Product data sheet

Reference PDS-US-PG-09/10

SEWPERCOAT PG

Updated 9/17/2010

1 General Characteristics

Composed entirely of calcium aluminates, SEWPERCOAT® PG is a pre-packaged ready to use, fiber reinforced, high strength wet shotcrete material.

SEWPERCOAT® PG is a mortar that is designed to coat both new and existing municipal wastewater structures including manholes, lift stations, wet wells, etc. It is designed specifically to provide an abrasion and corrosion-resistant, protective lining that can withstand severe biogenic corrosion caused by the hydrogen sulfide (H_2S) found in wastewater environments.

The unique properties of SEWPERCOAT® result from the chemical and mineral phases formed during the hydration process. SewperCoat is unique when compared to other materials such as ordinary Portland cement (OPC) concrete, epoxies, poly-vinyl chloride (PVC) or polyethylene because of its ability to inhibit bacterial activity which drastically reduces the production of sulfuric acid.

SEWPERCOAT® is an adhesive mortar that possesses thin section toughness as well as high compressive and flexural strengths. Additional features include high early strength, freeze-thaw resistance as well as high temperature resistance (1,800°F/1,000°C). SEWPERCOAT® is also resistant to many other types of corrosion including sulfates, seawater, oils, gases, and dilute acids (pH range 3.5 – 11).

SEWPERCOAT® enhances the structural integrity of existing systems and reduces infiltration due to its high-density and low-porosity characteristics.

SEWPERCOAT® PG does not release calcium hydroxide as a hydration product. This imparts good chemical resistance and eliminates the major cause of efflorescence.

SEWPERCOAT® PG is a very dark gray color. SEWPERCOAT® PG does not contain crystalline silica.

TYPICAL MATERIAL PROPERTIES* (*PERFORMED BY AN INDEPENDENT TESTING LABORATORY @ 14-16% water*)				
SEWPERCOAT® PG		24 HRS	7 DAYS	28 DAYS
ASTM C 109	Compressive Strength, psi	>5,500	>6,000	>7,000
ASTM C 348	Flexural Strength, psi	>900	>1,100	>1,300
ASTM C 157	Shrinkage after 28d immersion, %	< 0.04	< 0.05	< 0.07
ASTM C 496	Splitting Tensile Strength, psi	>550	>600	>700
ASTM C 882	Bond Strength by Slant Shear, psi		>2500	>2500
ASTM C 666	Freeze-Thaw – 300 cyc, Rel. Dyn. Modulus	102		
ASTM C 642	Volume of Permeable Voids (40 days), %	15		
ASTM C 642	Apparent Density (40 days)	2.74		
ASTM C 469	Modulus of Elasticity (28 days), ksi	>5,000		

*The test results above were obtained under standard laboratory conditions and are presented as typical material properties only. Those properties presented above are not warranted or guaranteed by Kerneos. Properties obtained from field cast specimens may result in values different than those listed above. The warranted material properties are presented in section two of this Product Data Sheet.

kerneos ALUMINATE TECHNOLOGIES

ISO 9001

SEWPERCOAT PG

Updated 9/17/2010

2 Specifications

SEWPERCOAT® PG sold and distributed by Kerneos Inc. adheres to the following specifications:

Sieve Analysis

	Min (% retained)	Max (% retained)
# 8 (2.36 mm)	0	0
# 16 (1.18 mm)	1.5	9.5
# 30 (600 µm)	22	32
# 50 (300 µm)	38	52
# 100 (150 µm)	48	62
# 200 (75 µm)	52	68
Pan (passing #200)	32	48

Mortar Properties (using 14.5% water)

- Vibration flow
  - 0 min. 120 - 160 %
  - 30 min. 110 - 160 %
- Penetrometer Final Set
  - 4 – 10 hours
- Compressive Strength @ 24 hours
  - >5,500 psi

For detailed test procedures, please contact a Kerneos Technical or Quality Manager.

3 Technical properties

Biogenic Corrosion Resistance: SEWPERCOAT® withstands corrosive environments containing H_2S gas, which show strong Thiobacillus bacterial activity. Due to its high neutralization capacity, SEWPERCOAT® has been shown to locally raise the surface pH found on the surface of wastewater structures and prevents the successful colonization of the most aggressive strains of bacteria.

Abrasion Resistance: U.S. Army Corps of Engineers test CRD-C-63-80, Test Method for Abrasion-Erosion Resistance of Concrete, resulted in 0.5% weight loss after 12 hours of testing and 2.0% weight loss after 72 hours of testing. Typical 5,000-psi high-performance OPC concrete experienced a 3.6% weight loss after only 12 hours of testing. SEWPERCOAT® is approximately seven times more resistant to this type of abrasion than high-performance OPC concrete.

Aggregate Size: #14 mesh and finer (0 – 1.4 mm)

Working Time at 68°F: 2 hours

Wet Density at 68°F: 148-155 lb./ft^3 (2.4 – 2.5 g/cc)

Coefficient of Thermal Expansion: 5 x 10^{-6} in/in/°F (68°F to 1832°F)

4 Chemical Composition

SEWPERCOAT® contains no calcium sulfate, calcium chloride, tricalcium aluminate, lime hydrates or aggressive agents that attack reinforcing steel. The high-performance properties of SEWPERCOAT® are achieved through a blend of mineral elements.

Chemical analysis main constituents			
Al_2O_3	CaO	$FeO+Fe_2O_3$	SiO_2
39% - 44%	34% - 38%	9% - 15%	6% - 8%

5 Installation

Clean, potable water should be used for mixing. The water requirement is provided on each individual bag and is critical to obtain the specified performance properties. Always stay within the recommended specifications for mixing water.

Kerneos Inc.
1316 Priority Lane Chesapeake, VA 23324
Phone: (757) 284-3200 - FAX: (757) 284-3300

ISO 9001

SEWPERCOAT® products are not designed to be hand-applied. SEWPERCOAT® PG is designed to be applied with low-pressure, wet-spray equipment.

Preparation of the surface to be coated should be performed in accordance with applicable industry standards and specific project specification requirements. Sandblasting and/or hydro-demolition with high-pressure water may be used to remove existing deterioration and debris. The immediate bonding surface should be rough, damp and free of any existing coatings, sewer residue and running water. The structure itself should be fully saturated prior to a SEWPERCOAT® installation. Please see our suggested SEWPERCOAT® specification language for detailed surface preparation recommendations.

SEWPERCOAT® products are to be used as packaged. Under no circumstances should any substance other than water be added to SEWPERCOAT® products.

SEWPERCOAT® should not be used as a "build-out" mix or underlayment for any other product. SEWPERCOAT® should not be used in conjunction with or adjacent to any inert or organic coatings, including but not limited to epoxy, polyurethane, polyurea, and fiberglass. Curing should be implemented as soon as the surface begins to harden and dry (as early as one hour after application). Several layers of ASTM C309 liquid membrane curing compound or a 100%-humid moisture cure may be used.

Equipment used must always be clean and free of portland cement build-up to avoid accelerated set.

Generally accepted concreting practices (water ratio per bag, compaction, curing, etc.) should be employed to obtain the best quality installation with respect to mechanical strength and corrosion resistance.

6 Availability

SEWPERCOAT® is available in North America directly through Kerneos Inc. main office and warehouses.

SEWPERCOAT® is packaged in various bag sizes depending upon application and installation methods. SEWPERCOAT® PG is typically supplied palletized in 65-lb bags.

For more information about SEWPERCOAT®, including a list of installers, please contact Kerneos Inc. at 1-800-524-8463.

7 Technical Assistance

A licensed Professional Engineer is responsible for the determination of suitability, overall design, specifications and follow up for each project.

Kerneos Inc. has a technical assistance department with on-site laboratory facilities available to provide customer support.

Kerneos assistance in technical planning and installation of a project does not warrant the success of any application and is not a substitute for professional engineering judgment.

8 Packaging & Shelf Life

SEWPERCOAT® PG is available palletized in 65-lb bags. SEWPERCOAT® PG packaging is designed to protect it from humidity. However, as with all prepackaged concretes, SEWPERCOAT® PG should not be placed outdoors or in direct contact with the ground. When correctly stored in dry conditions, the properties of SEWPERCOAT® PG should remain within specification limit for at least 6 months. In most cases, its properties will be retained for over a year.

ISO 9001

SEWPERCOAT
PG

Updated 9/17/2010

SEWPERCOAT® 10 YEAR LIMITED WARRANTY (OWNER)

This warranty extends to the OWNER of the structure to which SewperCoat® is applied, effective as of the OWNER's acceptance of the work: Kerneos warrants to the OWNER that SewperCoat® PG, when installed in compliance with the recommended installation guidelines published by Kerneos, will protect sanitary wastewater structures from biogenic corrosion caused by exposure to sanitary sewerage environment. To be honored, claims must be filed by the OWNER within 10 years of acceptance of the work by OWNER. Kerneos' obligations hereunder extend only to providing labor and material to replace the defective material.

This warranty excludes consequential and incidental damages (including, without limitation, damage to equipment and peripheral facilities, service interruption, and loss of use). This warranty applies to sanitary sewage exposure only. Exposure to effluent, chemicals, or contaminants from industrial discharge will void this limited warranty.

SEWPERCOAT® LIMITED WARRANTY (BUYER)

Kerneos warrants to the BUYER of this product that, at the time of shipment, the product conforms to the Specifications set forth in Section 2 of the applicable Product Data Sheet. To be honored, claims under this warranty must be filed by the BUYER within 30 days of use of the product or 6 months of delivery to its BUYER, whichever comes first. Kerneos' sole obligation and the sole and exclusive remedy of BUYER under this warranty shall be the replacement of any nonconforming product or, at Kerneos' option, the refund of the purchase price paid by its BUYER.

DISCLAIMER OF OTHER WARRANTIES

THERE ARE NO WARRANTIES, EXPRESS OR IMPLIED, TO OWNER OR BUYER EXCEPT AS PROVIDED IN THIS LIMITED WARRANTY. ALL OTHER WARRANTIES, INCLUDING WITHOUT LIMITATION THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE EXCLUDED. NO WARRANTY IS GIVEN FOR, OR MAY BE IMPLIED FROM, ANY TECHNICAL ADVICE OR RECOMMENDATIONS PROVIDED BY KERNEOS.

WARRANTY CLAIM PROCEDURE

Kerneos reserves the right to inspect and determine whether any claim is the result of a breach of a warranty set forth herein or is related to another cause (all other causes are expressly excluded from coverage by the warranties contained herein).

Any claim under this limited warranty requiring an investigation by Kerneos may require extensive laboratory testing. It is the responsibility of any party making a claim to make any product or structure requiring testing accessible and available to Kerneos within a reasonable period of time after a claim arises. Inspection, including thickness verification and the gathering of specimens for testing may require the removal of a portion of the SewperCoat® lining in question or, if a structure requiring investigation cannot be made readily accessible, the removal of any frames, covers, or obstructions. At Kerneos' option, technical investigations and testing may be performed by either Kerneos internal facilities or by an independent agency.

It is the responsibility of the buyer (applicator) to maintain and document product installation and job acceptance reports in accordance with all applicable instructions including, without limitation, the location and date, the quantities installed, the mixing methods, surface preparation procedures used, installation personnel, and existing conditions of the structure including H_2S concentrations and initial surface pH. Kerneos will provide installation report forms upon request.

Kerneos ALUMINATE TECHNOLOGIES

ISO 9001

kerneos™
ALUMINATE TECHNOLOGIES

December 12, 2011

TV Diversified
6397 Shadow Creek Village Circle
Lake Worth, FL 33463

SUBJECT: SEWPERCOAT® APPLICATION STATUS

This letter serves to verify that TV Diversified has demonstrated the requisite skill and training to be considered competent and qualified installers of SewperCoat® materials (as manufactured by Kerneos Inc.). TV Diversified personnel have installation experience with the low-pressure, wet spray installation method and have successfully installed materials in manhole, lift station, and wet well rehabilitation applications.

With SewperCoat® being a specialty construction product having very specific installation methods and equipment requirements, Kerneos is very selective in our assessment of any contractor interested in gaining our "competent and qualified installer" designation. This designation is typically required in project specifications, along with other exhaustive experience and volume of similar work requirements. Kerneos maintains a listing of competent and quality contractors that have demonstrated requisite skill and training to be considered qualified installers of our materials. TV Diversified is included in this listing.

If you have any additional questions or comments, please do not hesitate to contact me directly.

Respectfully,

Joseph Talley

✓ Have included all licensing and certification require

THIS FORM MUST BE RETURNED WITH YOUR BID REPLY SHEET

DRUG-FREE WORKPLACE FORM

The undersigned vendor in accordance with Florida Statute 287.087 hereby certifies that

VacVision Environmental LLC does:
(Name of Business)

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

BID BOND

KNOW ALL MEN BY THESE PRESENTS, that we VacVision Environmental, LLC

as Principal, hereinafter called the Principal, and FCCI Insurance Company

a corporation duly organized under the laws of the State of Florida , and licensed to do business in the State of Florida, as Surety, hereinafter called the Surety, are held and firmly bound unto
City of Port St. Lucie

as Obligee, hereinafter called the Obligee, in the sum of ***five percent (5%) of proposed bid*** - Dollars ($ 5%), for the payment of which sum well and truly to be made, the said Principal and the Surety, bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

WHEREAS, the Principal has submitted a bid for *Manhole & Lift Station Rehabilitation Contract*

NOW, THEREFORE, if the Obligee shall accept the bid of the Principal and the Principal shall enter into a Contract with the Obligee in accordance with the terms of such bid, and give such bond or bonds as may be specified in the bidding or Contract Documents with good and sufficient surety for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof, or in the event of the failure of the Principal to enter such Contract and give such bond or bonds, if the Principal shall pay to the Obligee the difference not to exceed the penalty hereof between the amount specified in said bid and such larger amount for which the Obligee may in good faith contract with another party to perform the Work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect.
