RE: REZONING APPLICATION
PROJECT NO. P11-078
MANNA FOUNDATION
DATE: JULY 18, 2011

OWNER: Manna Foundation, Paul LiCausi, President.

LOCATION: East side of North Torino Parkway between Blanton Blvd. and Shawbury Ln.

LEGAL DESCRIPTION: Port St. Lucie Section 47, Tract A.

SIZE: 3.76 acres, or 163,896 square feet.

EXISTING ZONING: GU (General Use).

EXISTING USE: Currently, this is vacant land.

SURROUNDING USES: North and West = RS-2 (Single Family Residential) Zoning District, currently vacant land used for water retention. East = Cambridge Townhome PUD (Planned Unit Development), currently with existing townhomes but still being developed. South = Drainage right-of-way, beyond is I (Institutional) zoning, currently vacant.

REQUESTED ZONING: I (Institutional).

FUTURE LAND USE: ROI (Residential, Office, and Institutional).

PROPOSED USE: The property is being rezoned to Institutional so the owner can construct a church/worship center.

IMPACTS AND FINDINGS:

Land Use Consistency: The rezoning of this property to I (Institutional) is consistent with the direction and policies of the City's Comprehensive Plan. In regard to institutional land use throughout the City, a comparative land use analysis study completed in 1995 indicated that the City's current supply of institutional land use is low in comparison to other cities throughout the state and nation. Therefore, it was recommended to maintain an adequate supply of institutional sites for future growth.

Furthermore, Policy 1.1.4.4 (a) recommends that the City provide more Institutional zoned land throughout the City, while Policy 1.1.4.13 identifies that the I (Institutional) Zoning District is compatible with RL (Low Density Residential) future land use.

Furthermore, Policy 1.1.8 encourages the City to initiate and utilize planning and development controls to discourage the proliferation of urban sprawl, encourage innovative development, greater diversity of land uses, and to improve community appearance.

School Concurrency: Not applicable for Institutional uses.

Compliance With Conversion Area Requirements: This area is not found in any of the City's Conversion areas, and consists of only one lot, Tract A, therefore a unity of title is not required for this application.

Sewer/Water Service: Port St. Lucie Utility Systems will provide utilities.

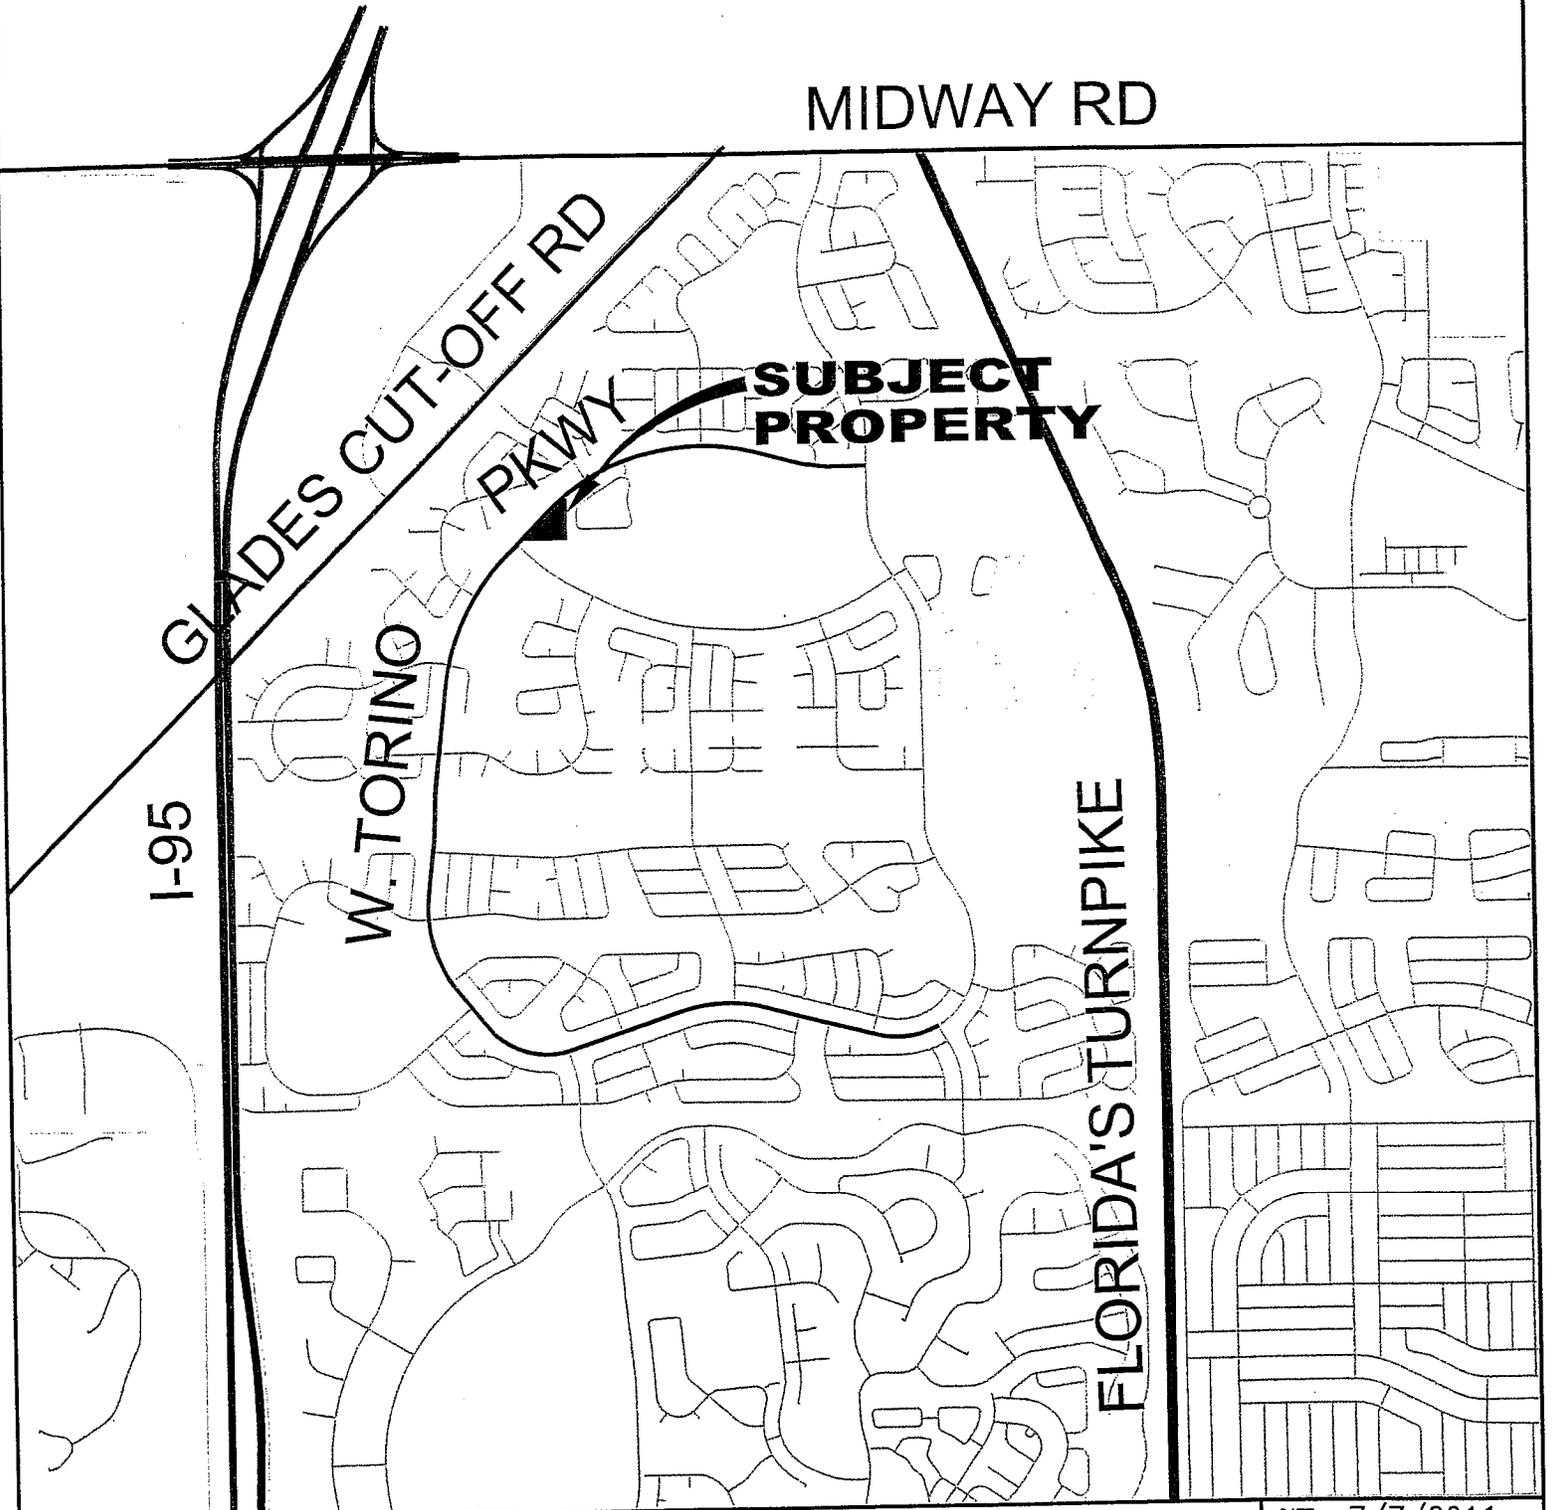

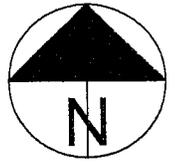

Environmental: The site is more than two (2) acres in size and currently contains a considerable amount upland habitat as well as other natural vegetation; therefore the site is responsible for preserving at least 25% of the total native vegetative community as outlined in Chapter 157, Natural Resource Protection, of the City's Land Development Regulations. There doesn't appear to be any unique environmental features associated with this land; however, other environmental issues may need to be addressed during future site plan review.

Other: As per § 153.04 (E) (1) a landscape buffer strip with a wall will be required to help shield the ensuing rezoned property from the surrounding residential property. The depth of the buffer is dependent on the size of the parcel (the combined size of this parcel is 2.72 acres), for this site the required buffer depth will be 15 ft.

STAFF RECOMMENDATION:

The Planning and Zoning Department staff finds the request to be consistent with the direction and intent of the future land use map and policies of the City's Comprehensive Plan and recommends approval.

We will like to informed the City of Port St. Lucie that we are OBJECTING TO THE MANNA FOUNDATION, P11-078. Because they are very closed to our Townhouses Units and this people make a lot of noises with their singing and you could hear them sing in our home and the disturb our community, they have a lot of people for the small lot that they have and they don't have enough parking space to park all the cars that they have, this will not only will disturb our community with a lot of noise in our community but also will bring a lot of traffic to the area and cars park all over the place.

Respectfully Submitted,
