Planning and Zoning Department Memorandum

TO: CITY COUNCIL - MEETINGS OF MARCH 26, 2012 AND APRIL 9, 2012

FROM: KATHERINE H. HUNTRESS, PLANNER

RE: REZONING APPLICATION
PROJECT NO. P11-066
CITY OF PSL/TANFORAN TOWER SITE

DATE: MARCH 15, 2012

APPLICANT: The applicant is Kevin Aycock with Dynamic Towers; the authorization letter is attached to the staff report.

OWNER: City of Port St. Lucie.

LOCATION: The property is located on the north side of Tanforan Boulevard, east and south of Interstate 95, and west of Alminar Street.

LEGAL DESCRIPTION: Lot 19 and a portion of Lot 18, Block 1828, Port St. Lucie Section 35.

SIZE: Approximately 0.331 acres (14,434 square feet) with 122 feet fronting the unimproved Tanforan Boulevard right-of-way.

EXISTING ZONING: RS-2 (Single Family Residential).

EXISTING USE: Vacant land and drainage detention area (Pond B-5 East).

SURROUNDING USES: North = RS-2 (Single Family Residential) zoning, existing drainage detention area. South = U (Utility) zoning, existing drainage detention area. East = RS-2 (Single Family Residential) zoning, existing vacant land. West = unclassified and then RS-2 (Single Family Residential) zoning, existing I-95 and then housing.

REQUESTED ZONING: U (Utility)

FUTURE LAND USE: RL (Low-Density Residential) but concurrently processing an application to change the designation to U (Utility).

PROPOSED USE: The applicant has submitted concurrent applications for comprehensive plan amendment for future land use change (P11-065), special exception use (P11-059), and site plan (P11-060) for a 175 foot monopole (wireless communications tower). The site plan and special exception use applications will be reviewed at a future City Council meeting. Additionally, an exemption from platting to combine the two lots was approved on July 26, 2011.

The site was originally platted for single-family residential use as a part of the 1969 plat *Port St. Lucie Section 35*. Following that plat, the northern portion of the subject parcel was used to construct a water retention area titled Pond B-5 East. Later, the western edge was acquired and used for the Interstate 95 project that was completed in the 1980s.

IMPACTS AND FINDINGS:

Land Use Consistency: The petition is consistent with the direction and policies of the City's Comprehensive Plan. The subject application is supported and justified by Policy 1.1.3: "Development orders and permits for development and redevelopment activities shall be issued only in areas where public facilities necessary to meet level of service standards (which are adopted as part of the Traffic, Infrastructure, Recreation, and Open Space, and Capital Improvements Elements of this Comprehensive Plan) are available concurrent with impacts of development."; and Policy 1.1.4: "Future growth, development and redevelopment shall be directed to appropriate areas as depicted on the Future Land Use Map. The land use map shall be consistent with: sound planning principles; minimal natural limitations; the goals, objectives, and policies contained within this Comprehensive Plan; and the desired community character, and to ensure availability of land for future demand and utility facilities."

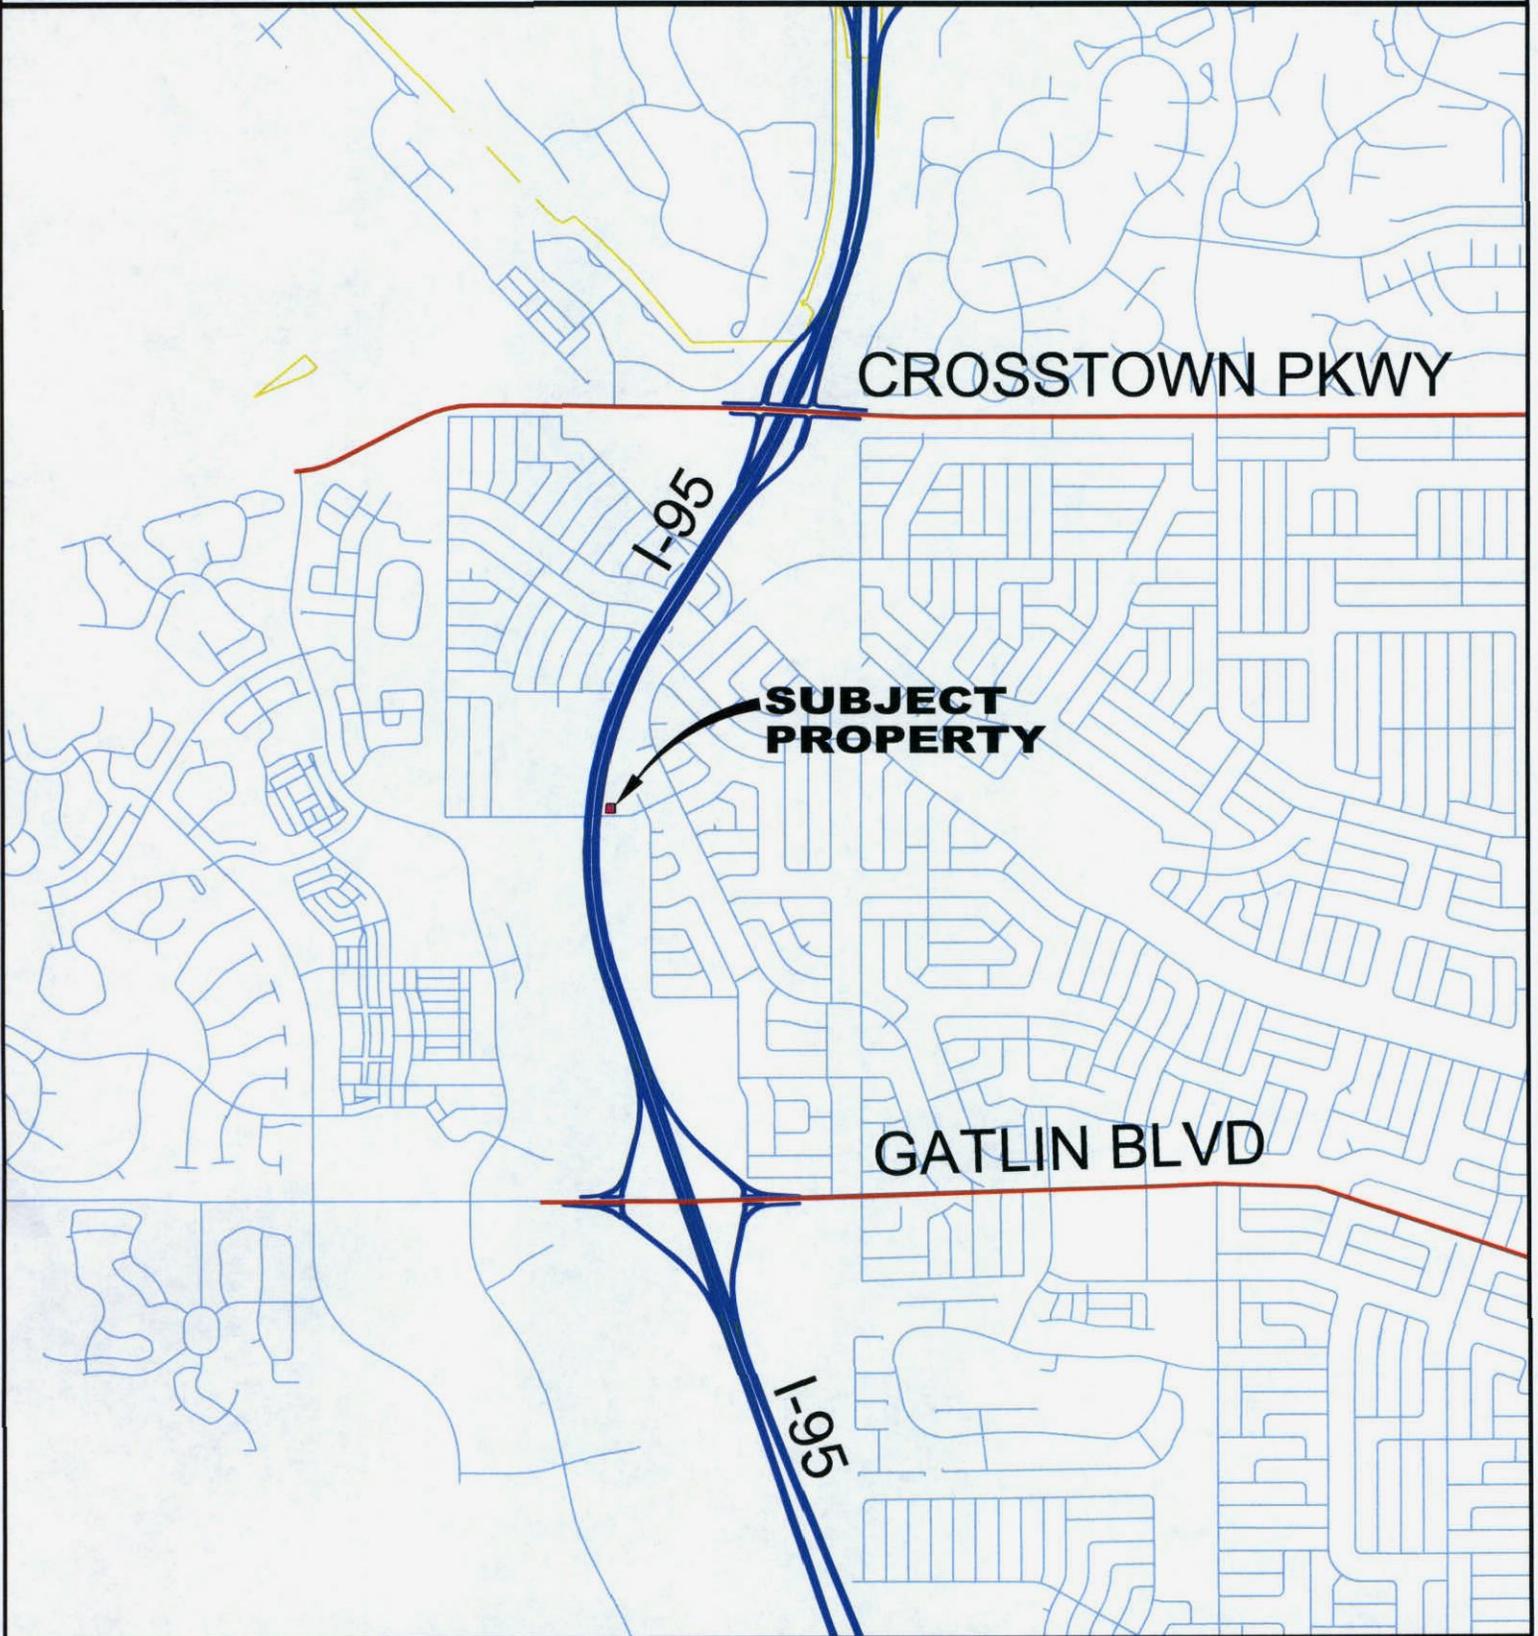

Sewer/Water Service: The City of Port St. Lucie is the water and sewer provider though connection is not proposed.

Environmental: The site has been previously cleared and does not have any unique environmental factors.

STAFF RECOMMENDATION:

The Planning and Zoning Department staff finds the request to be consistent with the direction and intent of the future land use map and policies of the City's Comprehensive Plan, and recommends approval. The Planning and Zoning Board reviewed the request at their meeting on July 5, 2011 and unanimously recommended approval.
