5. Turn over to: Clyde Cuffy from the Engineering Department.

The project is basically construction of a transit facility. It is going to be located on the corner of Deacon Avenue and Belvedere Blvd. The entire site is 1.8 acres; however the transit facility is not going to occupy the entire site. This is pretty much Phase I, which is going to be the construction of a concrete bus pad that measures one hundred forty eight (148) feet by twenty (20) feet wide. That accommodates four (4) transit buses for the county transit system. There's going to be a parking lot for twenty four (24) parking spaces, there are three (3) driveways, one (1) on Belvedere and two (2) on Deacon Avenue. The two (2) on Deacon Avenue are for the buses. There's associated culverts for those driveways, a dry detention area, there is an existing shelter on that site right now that we'll be keeping and we'll be adding to that existing shelter a bike rack, an informational kiosk, a drinking water fountain, and then sidewalks, as shown on the plans. There is an optional bid item for an additional sidewalk. Approximately three hundred forty (340) feet of sidewalk on the north side of Deacon Avenue and that's going to be tied into the sidewalk on Airosa Blvd. The contract period is for one hundred eighty (180) calendar days. Culpepper & Terpening is the design engineer for that site as well as CEI. I'll open the floor to any questions. We have Stef Matthes from C&T so he can answer any questions you have.

Q: Is the entire site going to be clear?

A: No, the limits of clearing are going to be up to twenty (20) feet north of the parking lot. If you look sheet #3, it says future parking, that area remains wooded.

Q: So we're just going to clear twenty (20) feet beyond the parking lot, that's it?

A: Yes.

Q: What about for the sidewalks, we will need to clear for that, don't we?

A: No, the sidewalks, are within the right of way.

Q: So, it should be already cleared there?

A: Yes. You'll be doing some grubbing though.

Q: On the waterline, you have no RPZ going to the fountain? Do you wish to have an RPZ to it?

A: We'll check with utilities. We'll put that out in the addendum.

Q: Is the City paying for testing?

A: Yes, we have a geo tech on line for this project. Any failed test would be the responsibility of the contractor and of course retesting for the failed tests will be the Contractor's responsibility.

Q: Is there a budget figure?

A: Yes, the total budget is \$300,000 that includes some contingencies, testing, permits, and CEI services.

Talking about permits, we are in the process of getting Gopher Tortoise permit for the site, we had an evaluation of the site and found seven (7) potentially occupied tortoise mounds out there. So we are in the process of getting a permit for that so that they can be relocated.

We have the SFWMD No Notice Permit for the site. See Addendum #2 for the SFWMD permit.

Q: Can you repeat what you said before, the South Florida comment?

A: There are two (2) permits, the South Florida Water Management permit we have on hand which is a No Notice General Permit and then the second one is a Gopher Tortoise Permit from the Florida Fish and Wildlife Commission. We are in the process of getting that right now, so by the time you are ready for construction, we should have that and the tortoises will have been relocated.

Q: You're handling the relocation of the tortoises?

A: Yes, we are.

Q: At the bottom of the bid tab, option for bid item A, where is the information for the handrail detail, drainage information at the bottom of the bid tab?

A: It is not on the sheet. The construction plan shows the location which is on the north side of Deacon. As far as any hand rails, that's something that we'll have to work out. We'll provide detail on that. We'll issue that with the addendum.

With no further questions, the meeting was adjourned at approximately 1:10pm.

Instructions to Bidder:

Each bidder **MUST** acknowledge receipt of any addenda on the Bid Reply Sheet #20120074 in order to have his/her bid or proposal to be accepted.

and supersedes all previous versions. All amended conditions of the previous permit (changed or new items) are indicated by bold text.

PERMIT CONDITIONS AND PROVISIONS:

- 1 Authorization to conduct the specified activities in association with the relocation of gopher tortoises in Florida are subject to Rules 68A-9.002 and 68A-27 Florida Administrative Code (F.A.C.), and the Florida Fish and Wildlife Conservation Commission's (hereafter, "FWC") Gopher Tortoise Permitting Guidelines - April 2008 (revised November 2011), and the following provisions/conditions.
- 2 Tortoises shall not be captured/relocated on days for which the overnight low temperature for that day and the two consecutive days thereafter is forecasted by the U.S. National Weather Service to be below 50°F. This 3-day window of milder overnight temperatures is to allow the relocated tortoises to settle into the recipient site. Authorizing the capture/relocation is otherwise predicated and conditioned on the information and assurances provided in the permittee's 7/19/2012 application (supplemented on 7/20/2012, 7/30/2012, and 8/2/2012) **and the 8/3/2012 amendment request**, the assurances of which are herein incorporated by reference.
- 3 Gopher tortoise burrow commensals not listed as endangered, threatened, or species of special concern in Rule 68A-27 F.A.C. that are encountered in the capture operation may likewise be live-captured, relocated and released. In addition, no more than one Florida pine snake (*Pituophis melanoleucas mugitis*), or 10 each of the Florida mouse (*Podomys floridanus*) and gopher frog (*Litobates capito*) may be relocated. Should additional specimens of these species or other species listed as endangered, threatened or species of special concern, be encountered, the capture operation is to be suspended immediately and the Permittee shall call the Gopher Tortoise Permit Coordinator's office at (850)921-1031 for instructions.
- 4 Only individuals who are in possession of a valid permit or authorization issued by the United States Fish and Wildlife Service to capture or possess an eastern indigo snake (*Drymarchon corais couperi*) are permitted to physically handle these snakes. If individuals without this permit or authorization encounter an eastern indigo snake during attempts to capture gopher tortoises or during subsequent land alteration or development activities within the property, all movement of heavy equipment and land alteration or development activities within the vicinity of the snake shall cease to allow the snake to vacate the area. No movement of heavy equipment, or land alteration or development activities within the vicinity of the snake shall resume until the snake has vacated the work area.
- 5 Captured gopher tortoises that show signs of disease (i.e. nasal and ocular discharge, emaciation, etc.) should not be relocated off-site. At the Permittee's discretion, symptomatic tortoises may be: relocated on-site; transported to and quarantined at a FWC licensed wildlife rehabilitation center (list available upon request) or licensed veterinary facility and observed for recovery and subsequent relocation along with others from the population; transported and donated to a FWC permitted disease research program; or humanely euthanized by a licensed veterinarian when disease is advanced.
- 6 Gopher tortoises released at a recipient site shall be released into an enclosure in conformance with the FWC enclosure requirements. The enclosure must be maintained for a minimum period of six months from the final release of gopher tortoises into the enclosure, but no longer than twelve months; however, the maximum 12-month time limit will not apply when the entire perimeter of the approved recipient site parcel is permanently fenced in conformance with the FWC enclosure requirements. Enclosure materials, construction methods and dimensions must conform to the requirements specified in the Gopher Tortoise Permitting Guidelines. The enclosures must be regularly monitored and maintained, including the immediate repair of any damage to maintain the integrity of the enclosure. Monitoring of the enclosure shall be conducted at least once a week for the first four weeks following release of tortoises, and at least once a month thereafter.
- 7 Gopher tortoises may be released into an enclosure constructed within a portion of a recipient site. The stocking rate within the enclosure may be up to 1.5 times the gopher tortoise density that is approved by the FWC for that entire recipient site parcel. However, the maximum number of tortoises

approved by the FWC for release into the entire recipient site parcel shall not be exceeded.

- 8 This permit does not authorize Permittee access to any public or private properties. Any required permission must be secured from the appropriate landholders prior to undertaking any work on such properties.
- 9 Captures/relocations may be conducted only if written local government approvals have been obtained for land clearing or grading, or construction activities. This permit is subject to revocation at any time pursuant to Chapter 120, Florida Statutes. It is non-transferable and must be readily available for inspection at all times while engaging in the permitted activities.
- 10 The activities authorized under this Permit must be carried out by the Authorized Gopher Tortoise Agent ("Authorized Agent") designated on this permit, or under the direct supervision and responsibility of that Authorized Agent. The Permittee and Authorized Agent shall be as fully responsible for any such activities to the same extent as if they had themselves carried out those activities under this Permit.
- 11 A gopher tortoise burrow survey covering 100% of the gopher tortoise habitat within the donor site must be conducted by the Authorized Agent and a burrow location map depicting the survey results shall be submitted to the FWC no more than 90 days and no fewer than 72 hours (excluding weekends and holidays) prior to commencing any gopher tortoise capture and relocation activities. Site preparation or development activities that disturb the vegetation or the ground which prevent the FWC from checking the accuracy of 100% gopher tortoise burrow surveys shall not be conducted until at least 72 hours (excluding weekends and holidays) after the 100% burrow survey results and burrow location map have been received by FWC.
- 12 The Permittee shall notify the Gopher Tortoise Permit Coordinator by fax at (850)488-5297 or by phone at (850)921-1031, at least 24 hours before initiating the tortoise relocation effort.
- 13 Either this original permit, or a complete copy, must be clearly posted at the affected site at all times while engaged in the permitted tortoises relocation activities.
- 14 Any gopher tortoise mortality or injury that occurs while conducting activities authorized under this permit shall be reported to the Gopher Tortoise Permit Coordinator (phone number 850-921-1031) within 24 hours of the occurrence. An injured gopher tortoise shall be promptly taken to either a licensed wildlife rehabilitation facility or a licensed veterinarian for evaluation and treatment. Contact information for the facility or veterinarian shall be included with the information reported.
- 15 The Permittee, by signing this permit, specifically agrees to allow authorized FWC personnel, upon presentation of credentials as may be required by law, access to the donor and recipient sites, at reasonable times, for the purpose of inspecting the capture/relocation activities authorized under this permit.
- 16 The Permittee shall submit a report detailing the capture/relocation to the Species Conservation Planning Section (SCPS) using the FWC's on-line gopher tortoise permitting system, or by mail delivery service to the Gopher Tortoise Permit Coordinator at the address listed on this permit's letterhead, with a copy provided to the recipient site landowner(s), within 30 days of release of the captured/relocated tortoises involved. A report form is attached for use in that regard. Any request for permit renewal or extension shall be submitted at least 45 days prior to the expiration date of this permit.

A person whose substantial interests are affected by FWC's action may petition for an administrative proceeding (hearing) under sections 120.569 and 120.57 of the Florida Statutes. A person seeking a hearing on FWC's action shall file a petition for hearing with the agency within 21 days of receipt of written notice of the decision. The petition must contain the information and otherwise comply with section 120.569, Florida Statutes, and the uniform rules of the Florida Division of Administration, chapter 28-106, Florida Administrative Code. Upon such notification, the Permittee shall cease all work authorized by this permit until the petition is resolved. The enclosed Explanation of Rights statement provides additional information as to the rights of parties whose substantial interests are or may be

affected by this action.

Site preparation or development activities that disturb the vegetation or the ground which prevent the FWC from checking the accuracy of 100% gopher tortoise burrow surveys shall not be conducted until at least 72 hours (excluding weekends and holidays) after the 100% burrow survey results and burrow location map have been received by FWC.
- 12 The Permittee shall notify the Gopher Tortoise Permit Coordinator by fax at (850)488-5297 or by phone at (850)921-1031, at least 24 hours before initiating the tortoise relocation effort.
- 13 Either this original permit, or a complete copy, must be clearly posted at the affected site at all times while engaged in the permitted tortoises relocation activities.
- 14 Any gopher tortoise mortality or injury that occurs while conducting activities authorized under this permit shall be reported to the Gopher Tortoise Permit Coordinator (phone number 850-921-1031) within 24 hours of the occurrence. An injured gopher tortoise shall be promptly taken to either a licensed wildlife rehabilitation facility or a licensed veterinarian for evaluation and treatment. Contact information for the facility or veterinarian shall be included with the information reported.
- 15 The Permittee, by signing this permit, specifically agrees to allow authorized FWC personnel, upon presentation of credentials as may be required by law, access to the donor and recipient sites, at reasonable times, for the purpose of inspecting the capture/relocation activities authorized under this permit.
- 16 The Permittee shall submit a report detailing the capture/relocation to the Species Conservation Planning Section (SCPS) using the FWC's on-line gopher tortoise permitting system, or by mail delivery service to the Gopher Tortoise Permit Coordinator at the address listed on this permit's letterhead, with a copy provided to the recipient site landowner(s), within 30 days of release of the captured/relocated tortoises involved. A report form is attached for use in that regard. Any request for permit renewal or extension shall be submitted at least 45 days prior to the expiration date of this permit.

A person whose substantial interests are affected by FWC's action may petition for an administrative proceeding (hearing) under sections 120.569 and 120.57 of the Florida Statutes. A person seeking a hearing on FWC's action shall file a petition for hearing with the agency within 21 days of receipt of written notice of the decision. The petition must contain the information and otherwise comply with section 120.569, Florida Statutes, and the uniform rules of the Florida Division of Administration, chapter 28-106, Florida Administrative Code. Upon such notification, the Permittee shall cease all work authorized by this permit until the petition is resolved. General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

- Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
- Certify that you are not subject to backup withholding, or
- Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

- Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
- Certify that you are not subject to backup withholding, or
- Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity.
