RE: REZONING APPLICATION
PROJECT NO. P12-090

OWNER: Ismael and Luz M. Soto (Lot 9) and Hair by Maria (Lot 10).

LOCATION: The property is located on the east side of Lennard Road, north of Longhorn Avenue, south of Melaleuca Boulevard, and west of Lucaya Street.

LEGAL DESCRIPTION: The property is legally described as Lots 9 and 10, Block 1543, Port St. Lucie Section 30.

SIZE: .459 acres (20,000 square feet). The site meets the minimum lot requirements of 20,000 square feet and 100 foot frontage.

EXISTING ZONING: RS-2 (Single Family Residential).

EXISTING USE: Single family residence.

East = RS-2 (Single Family Residential) zoning, existing single family residences. West = U (Utility) zoning, existing EWIP project pond.

REQUESTED ZONING: P (Professional)

FUTURE LAND USE: ROI (Residential, Office, Institutional)

PROPOSED USE: Beauty shop

IMPACTS AND FINDINGS:

Land Use Consistency: The petition is consistent with the direction and policies of the City's Comprehensive Plan. The subject application is supported and justified by Policy 1.1.3: "Development orders and permits for development and redevelopment activities shall be issued only in areas where public facilities necessary to meet level of service standards (which are adopted as part of the Traffic, Infrastructure, Recreation, and Open Space, and Capital Improvements Element of this Comprehensive Plan) are available concurrent with impacts of development."; and Policy 1.1.4: "Future growth, development and redevelopment shall be directed to appropriate areas as depicted on the Future Land Use Map. The land use map shall be consistent with: sound planning principles; minimal natural limitations; the goals, objectives, and policies contained within this Comprehensive Plan; and the desired community character, and to ensure availability of land for future demand and utility facilities."

Sewer/Water Service: The City of Port St. Lucie Utilities provides water and sewer service to the site.

Environmental: Lot 9 has previously been cleared and improved, and Lot 10 is vacant and uncleared. At time of site plan review, an environmental statement will be required to be provided on the site plan.

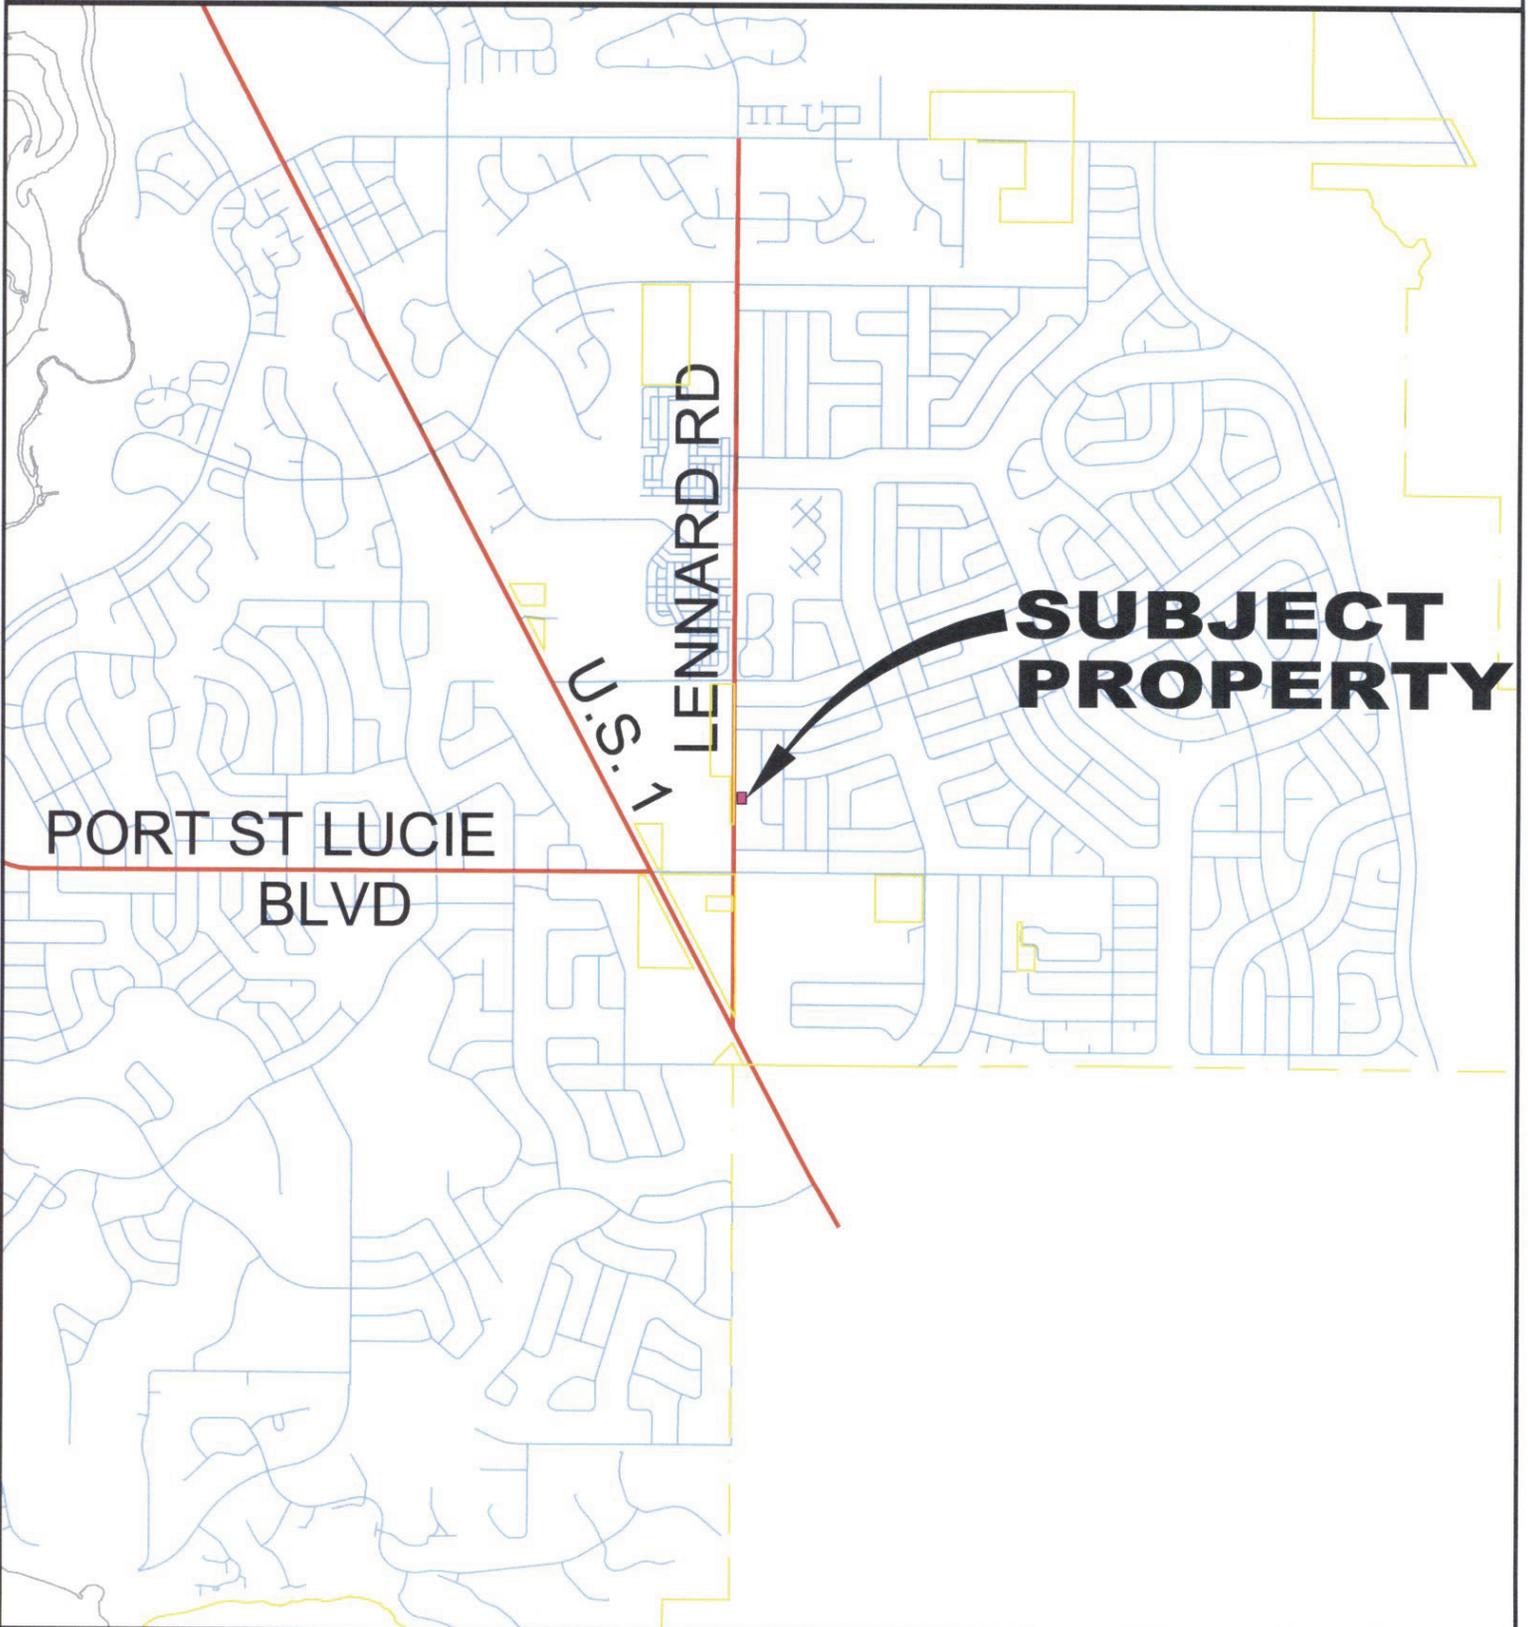

Compliance With Conversion Area Requirements:

1. Planning Area location per conversion manual: 9
2. The property is totally within planning area: Yes
3. Minimum Frontage: Yes
4. Minimum Depth: Yes
5. Does the request isolate lots: No
6. Has a Unity of Title been submitted: The unity of title is attached to the staff report.
7. Buffer required: Landscape buffer strips with six-foot high architectural walls and landscaping will be required wherever the property abuts property to the side or the rear that is designated with a residential use. Abutting properties are considered those that are either contiguous or separated by a road or drainage right-of-way. The walls are required to be installed prior to the issuance of foundation permits for any commercial, office, institutional, or multi-family development. This is intended to minimize impacts to abutting single family residential lots.

STAFF RECOMMENDATION:

The Planning and Zoning Department staff finds the request to be consistent with the direction and intent of the future land use map and policies of the City's Comprehensive Plan, and recommends approval. The Planning and Zoning Board reviewed the request on September 4, 2012 and unanimously recommended approval.
